

## An Update of LTAP Training and Programs for 2019

By Emily Wilder, Kansas LTAP

LTAP is off to a great start for 2019! Forty-six training classes are scheduled for this year with the opportunity for even more to be added in the fall. Registration is open for the entire year and some classes are already starting to fill up, so the earlier you register the better. If you have suggestions for new trainings, please contact [kutc\\_training@ku.edu](mailto:kutc_training@ku.edu) with your recommendation.

Kansas Roads Scholar enrollment is also increasing with the addition of twenty new students to Level One and twelve new students to Level Two since January 1<sup>st</sup>. If you would like to enroll in the Kansas Roads Scholar Program, please visit <http://kutc.ku.edu/roads-scholar-home-page> for more information.

### Upcoming Classes

Date	Workshop	Location	Roads Scholar	Registration
<b>4/24</b>	Basic Surveying for Foremen	Manhattan		<a href="#">Register Now</a>

To view our full LTAP calendar and secure your spot early, please visit <http://kutc.ku.edu/calendar/ltap>

### Additional Training Resources

[Tailgate Safety Briefings aka "Tailgate Talks"](#) – Tailgate Talks are a safety brief series developed by the National LTAP and TTAP association. These 10-15 minute safety briefs can be used as a guide to help you conduct training sessions for your crew on a number of safety topics. There's even a guide on how to give a tailgate talk! Check them out [here](#) or contact us at [kutc\\_training@ku.edu](mailto:kutc_training@ku.edu) for more information.

[Online Training through KS LTAP](#) - Last year, Kansas LTAP began a test of online training made available at [kansastap.2leap.com](http://kansastap.2leap.com) with classes created by publicworkstraining.com. This test continues into 2019 and is expected to conclude at the end of the year. The training includes classes on:

- Using Asphalt PASER to Evaluate Your Roads
- Introduction to Transportation Asset Management

- Winter Maintenance for Operators: Ice Control, Equipment Inspection & Personal Safety
- Workplace & Operations Safety Training

Currently, limited space is available in the test program to take one or more of these classes for free. The only requirement is that you complete whichever courses are assigned and provide feedback on the experience. If you're interested in joining the test program, please contact [kutc\\_training@ku.edu](mailto:kutc_training@ku.edu) for more information.
