

Kansas LTAP Announces Fall 2019 Training Classes

By Emily Wilder, Kansas LTAP

How do I know it's almost fall? College students are back on the KU campus in Lawrence, the weather is only in the 80s, and the start of the Kansas LTAP Fall Training classes are here!

This fall we are offering nearly 20 training sessions and space is filling up quickly. Our newest course on Welding is already full and three other classes are approaching capacity. There are currently 167 registered participants. Don't hesitate to register if you know what you want/need to attend.

If you are interested in attending a Welding class, please contact kutc_training@ku.edu. We may add another class if there is sufficient demand.

If you would like to enroll in the Kansas Roads Scholar Program, please visit <http://kutc.ku.edu/roads-scholar-home-page> for more information.
