Want to learn more about the Kansas Roads Scholar Program?

The Level One Technical Skills Program enhances the knowledge of general public works maintenance and construction methods, safety practices, and how local government is organized and operated, as it applies to quality public service. The Technical Skills Program consists of 10 different training sessions for a total of at least 60 hours of instruction.

The Level Two Supervisory Skills Program develops supervisory skills for persons engaged in public works maintenance and construction activities. The Supervisory Skills Program consists of eight different training sessions for a total of at least 50 hours of instruction.

The Level Three Executive Development Program enhances management and administrative skills for those who are, or aspire to be, a county highway administrator, county or city engineer, or public works director. The Executive Development Program consists of 10 different training sessions plus one elective course for a total of at least 60 hours of instruction. Some of the classes are online.
