A Kansas Transit Providers' Webinar For Transit Providers - By Transit Providers

Kansas RTAP is excited to debut a new Transit Providers' Webinar Series – "For Transit Providers, By Transit Providers" – on technical topics of an agency's own choosing.

This is the first webinar of the series. We plan to offer three per year. The webinars are provided at no charge. There will be time for questions and conversation after the presentation.

To register for the free webinar, click on the Registration URL:
<https://attendee.gotowebinar.com/register/3643640094557226253>
Webinar ID 235-395-163

We hope you will join us.

And by the way, do you have a topic you'd like to talk about? We would love to have you present a webinar based on a transit topic you are passionate about! If you or your staff have a business or operations practice you think other agencies could benefit from doing, we'd like to hear from you. It could be a good idea from management, drivers, mechanics, dispatchers, admin staff, volunteers, you name it.

Kansas RTAP will provide the logistics of broadcasting the webinar. Please contact Janellys Long (janellyslong@gmail.com) at Kansas RTAP to discuss your potential webinar topic.
