

Kansas RTAP Wants to Hear from You

We Encourage You to Participate in Our Survey Regarding Training

Kansas RTAP provides numerous training and technical assistance opportunities to transit operators and managers throughout the year. In our continuous effort to evaluate the effectiveness of our training opportunities, we developed a survey to seek agency feedback and it was distributed via email the last week of February.

The survey asks questions related to the content of training, the types of in-house training provided by local agencies, the Kansas RTAP Approved Trainer Program, technical support needed, the possible development of a progressive curriculum for drivers and the Bus Roadeo. Feedback from this survey will be used for future curriculum development.

If you did not receive a survey and would like to participate, please email Janellys Long, (janellyslong@gmail.com) to request a copy. If you already have completed it, thank you!
