

Kansas RTAP Director's Message

Welcome Lisa Koch as New Kansas RTAP Director

As Kansas RTAP begins its new grant year, we have news to share. Our Director, Lisa Harris-Frydman, began phased retirement in mid-June. She will still be with Kansas RTAP and the University of Kansas Transportation Center, working on special projects and mentoring staff. Lisa Koch has transitioned into the role of Director of Kansas RTAP. Lisa K. is a familiar face to many in the Kansas Transit world. She was the transit manager at KDOT from 2007-2010 and has worked with many transit providers in Kansas since that time as both a consultant and as a staff member of the KUTC. Lisa K. is excited to serve as Director and continue her relationships with the Kansas rural transit community.

Kansas RTAP will be growing direct programming to you this year. We plan to conduct six webinars this year on topics of interest to you. Additionally, we will prepare presentations that will be shared at your CTD meetings. You will receive emails from Kansas RTAP every other week digesting content from around the transit world. We will continue to provide great articles and fact sheets through our newsletters. As always, it is our goal to provide you with the technical skills needed to do your job. If you have content suggestions, please email Lisa Koch with ideas at kolisach@ku.edu.

Thank you all for your hard work and dedication to keeping Kansans moving!
